

Part Three

***A Message to our new friends, the Two Legged Creatures who inhabit the large structure labeled "BOWEN SCHOOL"***

***Dear Friends,***

***We cannot thank you enough for your generosity in sharing your space and resources, as well as dedicating your time to helping us search for these "creatures". With your help, we have determined that these creatures are not on the Upper Field and that they probably do not exist. However, there has been a new development in our saga. While we were away from our homes, some mysterious person, or creature, known only as "S.T.S", has brought in a construction team to build new structures in the area where our burrows had previously been. "S.T.S." claims that the area was "up for grabs" because it had been abandoned for several weeks. We suspect that this individual was responsible for the posters that scared us and drove us out of our homes. We need to find this "S.T.S." and stop him or her from taking over our land! We have found four clues as to the identity of "S.T.S.": an acorn, a top hat, a pair of round glasses, and a business card. We've included these in this week's package—please help us solve this mystery!***

***Thanks,***

***The Rabbits of the Upper Field***
